Bob,
Attached is the data package, including spectra, chain of custody documentation and the calibration curve for samples collected around the Willowbrook facility on November 19, 2018.

Subject: RE: Follow-Up

Hi Jenia,
I have cleaned up for Nov 19 samples. Could you please double check to make sure before I send them to Mike? Two files attached, one is the data package including COC forms, the other is iCal calibration curve used for Nov 19 samples.

Thanks,
Doris

My notes indicate they requested all raw data, including spectra and lab standards. I believe the ERG data packages should contain much of what they requested.

Doris, Jenia – Do you recall what specifically they want in terms of “lab data”?

Mike:

I just wanted to reach out on the following items from our discussions last week:

- Slides from the November Willowbrook Meeting
- Lab data on the EO sample measurements around the Willowbrook facility
- Any legal support on business confidentiality of the daily EO usages from the facility

Regards,
Kathy
